SCALEXTRIC 124

SET 30

- ★ **SKID CHICANE FOR THRILLS AND SPILLS**
- ★ **TWO UP-TO-THE-MINUTE COMPETITION CARS**

Set contains:

- 1 C/3 Javelin Special Competition Car
- 1 C/4 Electra Special Competition Car

8' 4", 254 cm of Track comprising:

- 8 Standard Curves
- 1 Starting Line Straight
- 1 SKID CHICANE
- 4 Crash Barriers
- 8 Banking Plates
- 2 Hand Throttles (A/265)

The Owner of a Scalextric Set has in his hands the starting point from which to build a really complete Model Motor Racing system, with regular additions of Track, Cars, Buildings, Figures and Accessories, any set will soon grow into a super 4, 6 or 8 lane layout with all the fabulous atmosphere of a full size Motor Racing Circuit.

SET 31

- ★ **FIGURE-EIGHT LAYOUT FOR EQUAL LANE LENGTHS**
- ★ **TWO SPECIAL NEW COMPETITION CARS**

Set contains:

- 1 C/3 Javelin Special Competition Car
- 1 C/4 Electra Special Competition Car

12' 6", 381 cm of Track comprising:

- 4 Standard Curves
- 2 Inner Curves
- 2 Double Inner Curves
- 1 Straight 'C'
- 5 Straight 'D'
- 1 Starting Line Straight
- 6 Crash Barriers
- 12 Banking Plates
- 2 Bridge Pillars
- 2 Track Borders
- 2 Hand Throttles (A/265)

By starting with a Scalextric Set you have a basis to build a Replica of one of the famous full size Racing Circuits (see Page 23 for "101 Circuits") The "SPORTS 31 SET" makes an excellent starter.

Power Units are not included with these Sets (see Page 19).

SPORTS 35 SET

- ★ **CHANGE-OVER TRACKS FOR EQUAL LANE LENGTHS PLUS SUPER EXCITEMENT**
- ★ **CIRCUIT DESIGNED TO DEVELOP DRIVER'S SKILL**
- ★ **LATEST SPECIAL COMPETITION CARS**

Set contains:

- 1 C/3 Javelin Special Competition Car
- 1 C/4 Electra Special Competition Car

16' 0" (488 cm) of Track including:

- 12 Standard Curves
- 3 Straight 'D'
- 1 Starting Line Straight
- 2 CHANGE-OVER TRACKS
- 6 Crash Barriers
- 10 Banking Plates
- 2 Hand Throttles (A/265)

Racing Competition Cars on the '35' Circuit with its exciting Change-Overs soon puts skill into the hands of every beginner.

RALLY 45 SET

- ★ **RACE-TUNED RALLY MINI COOPERS**
- ★ **90° CROSS-OVER TO ADD THE REAL THRILLS OF RALLY RACING**
- ★ **FIGURE-EIGHT CIRCUIT GIVES EQUAL LENGTHS TO BOTH LANES**

Set contains:

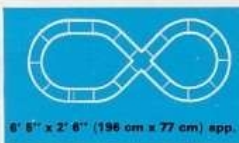

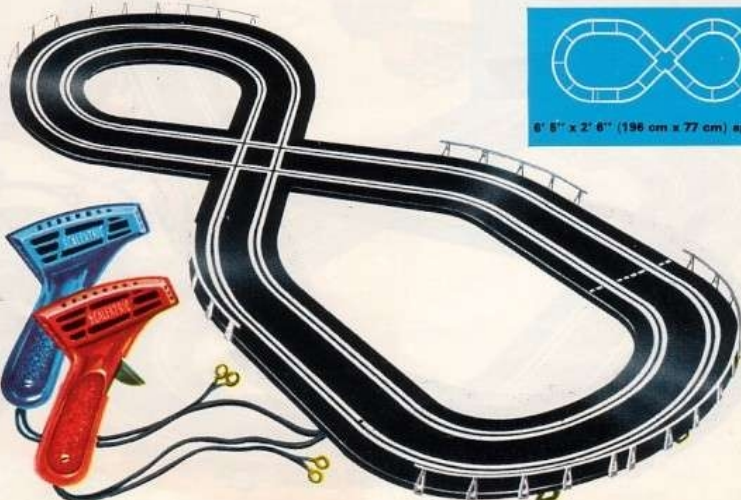

- 1 C/7 Rally Mini-Cooper (Green)
- 1 C/7 Rally Mini-Cooper (Black)

14' 0" (427 cm) of Track comprising:

- 12 Standard Curves
- 4 Straight 'C'
- 1 Straight 'D'
- 1 Starting Line Straight
- 1 RIGHT-ANGLE CROSSING
- 8 Crash Barriers
- 8 Banking Plates
- 2 Hand Throttles (A/265)

Super Fast Rally Mini-Coopers and a Circuit which includes the 90° Cross-Over give you all the thrills of an exciting circuit on which you not only drive fast, but must use your skill to avoid crashing at the Crossroads.

Power Units are not included with these Sets (see Page 19).

GRAND PRIX 50 SET

- ★ **TWO NEW GRAND PRIX CARS FITTED WITH THE FANTASTIC RACE-TUNED POWER SLEDGE (SEE PAGE 13)**
- ★ **LAP COUNTER FOR UP TO 15 LAPS**
- ★ **FLY-OVER BRIDGE GIVING EQUAL LENGTH TO BOTH LANES**

- 1 C/5 Europa Vee Grand Prix Special
- 1 C/6 Panther Grand Prix Special

16' 8" (508 cm) of Track including:

- 10 Standard Curves
- 3 Straight 'C'
- 5 Straight 'D'
- 1 Starting Line Straight
- 1 LAP COUNTER
- 2 Fly-over Bridge Supports
- 6 Crash Barriers
- 12 Banking Plates
- 2 Hand Throttles (A/265)

The POWER SLEDGE is new - it's unique design gives the cars in this Set terrific acceleration, extra high speed and fabulous Road Holding Capabilities. The automatic Lap Counter and Figure-8 Circuit ensure rapid advancement to highly skilled driving.

Power Unit not included (see Page 19).

7' 8" x 2' 6" (229 cm x 77 cm) app.

7' 4" x 3' 10" (224 cm x 117 cm) app.

7' 1" x 2' 6" (218 cm x 77 cm) app.

CLUB 60 SET

- ★ LARGE FIGURE-EIGHT CIRCUIT
- ★ TWO FAMOUS SPORTS CARS WITH RACE-TUNED MOTORS
- ★ LONG CHICANE TO ADD EXTRA THRILLS AT SPEED
- ★ EASY LAP CHECKING WITH TWO LANE LAP COUNTER

- 1 C/93 Austin Healey
- 1 C/94 Mercedes

20' 0" (610 cm) of Track including:

- 10 Standard Curves
- 5 Straight 'D'
- 3 Straight 'C'
- 1 Starting Line Straight
- 1 LONG CHICANE SET
- 1 LAP COUNTER
- 2 Fly-over Bridge Supports
- 6 Crash Barriers
- 14 Banking Plates
- 2 Hand Throttles (A/265)

Fast Cars, a large Figure-8 and the long Chicane bring all the thrills of high speed Sports Car Racing right into your own home.

Power Unit not included (see Page 19).

9' 1" x 3' 1" (276 cm x 93 cm) app.

9' 0" x 3' 9" (274 cm x 114 cm) app.

8' 6" x 2' 10" (264 cm x 86 cm) app.

007 SET

- ★ THE FABULOUS 007 CAR CHASE SET
- ★ 007 ASTON MARTIN HAS EJECTOR SEAT AND WORKING BULLET PROOF SCREEN
- ★ SPECIAL MERCEDES WITH BUMPER ACTUATED CRASH ACTION
- ★ EXCITING TRACK SECTIONS:-
90° CROSSOVER, SKID CHICANE, EXTRA LONG CHICANE INCLUDES BEND

1 Special 007 Aston Martin G.T.

1 Special Mercedes 190SL Sports 18" 8" (569 cm) of Track including:

4 Straight 'C'

8 Standard Curves

2 Converging Chicanes

1 Chicane Straight

1 Skid Chicane

4 Standard Curve Chicanes

1 Special Operating Straight

1 Right Angle Crossing

4 Straw Bales

8 Oil Drums

6 Banking Wedges

10 Marker Cones

2 Hand Throttles (A/265)

Drive the famous 007 Aston Martin G.T. and chase the underworld's Black Mercedes, catch it and ram its rear bumper, a spring will send it crashing off the Highway.

007 in the Aston Martin is well protected, if the Mercedes touches the rear bumper, a bullet-proof screen springs up behind the rear window.

The spy passenger is ejected through the Sunshine Roof after a rock in the road has been passed a number of times.

Care must be taken on the 90° Crossing and the various chicanes to avoid being rammed and crashed off the road by the other car.

(Power Unit not included, see Page 19).

7' 3" x 4' 8" (221 cm x 137 cm) app.

HP/4 SPECIAL 007 CONVERSION SET. TO MAKE ANY OTHER SCALEXTRIC SET OPERATE 007 CARS

POWER SLEDGE

NEW

RACE-TUNED

The Power Sledge introduces an entirely new concept to Scalextric Model Motor Racing. It is a complete chassis unit which rides the track on the two rear wheels and the forward guide flag, the body is fixed to the power sledge only by the back axle, this design ensures perfect weight distribution and a very low centre of gravity and in operation gives tremendous speed and has fantastic road holding capabilities.

CAT No. A/266

- ★ FANTASTIC ACCELERATION
- ★ TREMENDOUS SPEED
- ★ STUPENDOUS ROAD HOLDING
- ★ SUPERB BRAKING
- ★ RACE-TUNED MOTOR
- ★ DIE-CAST METAL GEAR BOX
- ★ FORWARD SLEDGE WEIGHT
GIVING CONSTANT ELECTRICAL CONTACT
- ★ LOW CENTRE OF GRAVITY
- ★ NEW TREADED TYRES
- ★ THREE-POINT TRACK CONTACT
- ★ EASY MAINTENANCE

NEW

NEW

C/6 PANTHER Grand Prix Special (Red or Yellow) (Available mid 1968)

C/5 EUROPA VEE Grand Prix Special (White or Green) (Available mid 1968)

LAP RECORDER SET

This really superb Electric Lap Recorder Set can be incorporated in any Scalextric Circuit, it records up to 999 laps and can immediately be reset to zero at any time. Additional sets can always be added for 4, 6 or 8 lane racing.

- ★ TWO RECORDER UNITS
- ★ SPECIAL TRACK SECTION, NO MOVING PARTS, 13½", 35cm., long (as PT/60)
- ★ RECORDS UP TO 999 LAPS
- ★ ALL ELECTRIC FROM EXISTING SUPPLY
- ★ RAPID RESET CONTROL
- ★ SIMPLE CLIP TOGETHER UNIT DESIGN
- ★ DUPLICATE SET OF NUMBERS TO IDENTIFY TRACK AND RECORDING UNITS

BANKED TRACK

This new Standard Curve Banked Track gives you the opportunity of fantastically fast racing with your Scalextric Cars. The 45° Banking and the special lead-in Straight Sections enable you to corner at really tremendous speeds and bring untold thrills to your circuit.

PT/97 SPEED BANKING SET

Contents:

- 4 Banked Standard Curves
- 4 Banking Supports
- 2 Banking Approach Pieces

PT/98 BANKED CURVE AND SUPPORT

PT/99 BANKING APPROACH PIECES 3 7/8", 8.7cm., long (Set of two)

LAP COUNTER

A/259 6½", 17.5 cm long

The Scalectric Lap Counter is operated automatically by the Cars. It records up to 15 laps for 2 cars on a 2 lane Circuit and incorporates a simple 're-set to zero' device.

For easy identification it is moulded in bright red, it therefore becomes a simple matter to quickly check the number of circuits that each car has completed.

There are no side projections thus allowing 2, 3, or 4 Lap Counters to be used alongside each other on 4, 6 and 8 lane circuits.

A/259

CHICANES

Chicanes add wonderful excitement to your circuit and bring skill to your driving.

PT/74 SHORT CHICANE SET
(2 pieces) 27 1/2" (70 cm) long (same length as 2 Straights 'D').

PT/75 CHICANE STRAIGHT
(centre piece only) 13 1/2" (35 cm) long.

PT/76 LONG CHICANE SET
(3 pieces) 41 1/2" (105 cm) long (same length as 3 Straights 'D').

PT/77 'GOODWOOD' CHICANE SET

Overall length 48 1/2" (122.5 cm) (same length as 3 Straights 'D' and 1 Straight 'C').

Modelled on the famous hazard used on the Goodwood Park Circuit, England. Comprises:

- 2 Converging Tracks - each 13 1/2" (35 cm) long.
- 1 Straight 'C' offset - 6 1/2" (17.5 cm) long
- 2 Curved Tracks - each 6 1/2" (17.5 cm) long.
- 3 Black Borders.
- 8 Lane Clips (for securing borders).
- 1 Goodwood Wall.
- 2 Half Tyre Markers.
- 12 Marker Cones.
- 12 Straw Bales.
- 6 Hurdles.

Two Goodwood Chicane sets make an excellent 4 lane Chicane.

PT/78 SKID CHICANE

13 1/2" (35 cm) long.
The thrill of controlling a skidding car at speed.

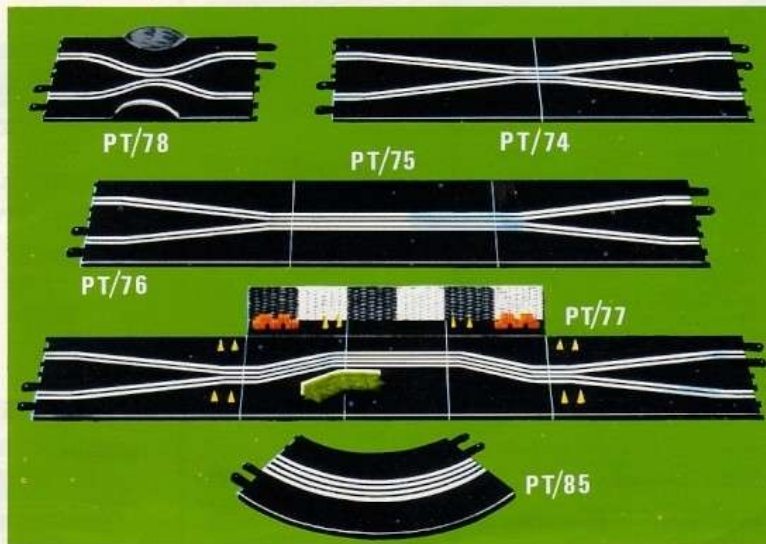

PT/85 STANDARD CURVE CHICANE (45°)

As many curved chicanes as desired may be joined together and used in conjunction with the Short Chicane Set (PT/74) to give the excitement of a long chicane ON A BEND. It can also be used with the Long Chicane Set (PT/76) to continue a straight chicane into a corner.

A/261 PENALTY CHICANE

SUPER EXCITEMENT! PENALTIES GALORE - IF A CAR JUST TOUCHES AN OIL DRUM OBSTACLE, A LOUD BUZZER INDICATES THAT A PRE-ARRANGED PENALTY MUST BE OBSERVED.
(Battery required Ever Ready H.P.2)

BRIDGES

PT/68 FLY-OVER BRIDGE

Comprises:

- 1 Straight 'D'
- 2 Crash Barriers
- 2 Straights 'C'
- 2 Bridge Supports

Overall track length 27 1/2" (70 cm).

PT/70 BRIDGE SUPPORTS ONLY

(2 per set)

For making a Fly-over Bridge with your existing track.

A/248 HUMP BACK BRIDGE

This magnificent Hump back Bridge adds distinction as well as excitement to any Scalextric Circuit. The highly detailed Plastic parapets simply clip on to the side of the track without the use of any loose accessories.

Length 13 1/2" (35 cm).

Fly-overs for four lane circuits may be constructed by using two PT/68 fly-over bridges. For six and eight lane fly-overs use banking units and trusses, A/217 and A/218 (see page 22).

PIT STOP SET PT/90

PT/96

PT/96 PIT STOP CABLE CONTROL SET

Set of 4 cable Hand Controls for operating the entry and exit turn-outs on the Pit Stop Set. (These are NOT included in the PT/90 Set or the individual Pit Stop Turn-outs 'W' and 'Y').

SCALEXTRIC

PT/90

Drive your Cars off the Circuit and into your Scalextric Pits.

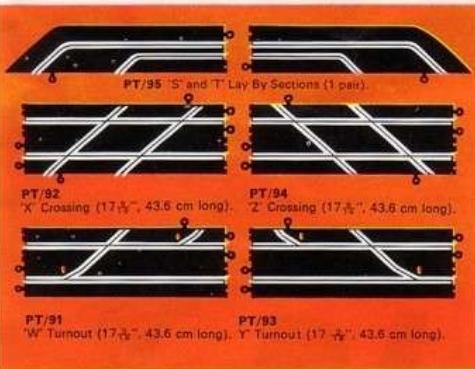

MANUALLY OPERATED

Comprises: 1 'W' Turnout
1 'Y' Turnout
1 'S' Lay By
1 'T' Lay By

(CABLE CONTROL UNITS ARE NOT INCLUDED IN THIS SET)

Simple Manually Operated Finger-tip control at entrance and exit track sections.

A/251 PADDOCK

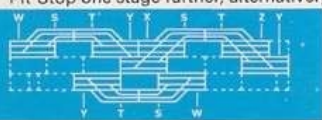

On 2 Lane Circuits the Paddock is used in conjunction with PT/91 Turnout 'W'. On 4, 6 or 8 Lane Circuits PT/92 Crossing 'X' is also required. Electric switches enable parked cars to be left in the Paddock while other cars are using the circuit. It is an ideal accessory for use with Hill Climb Layouts (see page 18). Cars may be left standing on the 'dead' sections of Paddock Track while awaiting their turn up the Hill.

The Pit Stop Sections can be built into a variety of True to Life Pit Stops for 2, 4, 6 or 8 Lane Racing, operation is simple and the Turnouts may be used in either direction.

THE BASIC SET

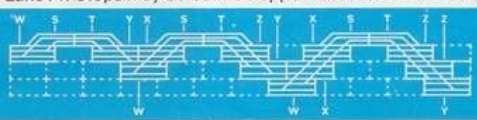

2, 4 and 6 Lane Pit Stop Layouts are illustrated, and 8 Lane Pit Stops may easily be constructed by extending the large 6 Lane Pit Stop one stage further, alternatively to conserve space two 4 Lane Pit Stops may be built on opposite sides of the circuit.

6 LANE
PIT
STOPS

4 LANE PIT STOP LAYOUTS

DRAGSTER

TURN AND

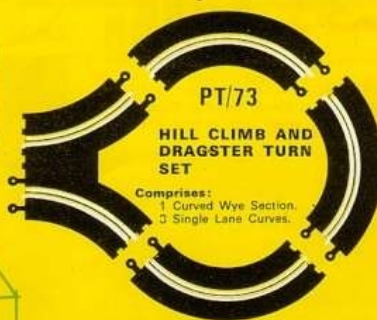

HILL CLIMB

Hill Climb Trials are very popular amongst Car enthusiasts and by using this Turn Set in conjunction with standard Scalextric Track Sections you may run trials in your own homes.

A simple Hill Climb circuit is illustrated, to add to the realism you can add Scalextric Turnouts and Paddocks (see page 17) behind the Starting Line, you may then park cars that are awaiting their turn, on the isolated sections of the Paddock Track.

An excellent Dragster Strip may also be made by using two Sets, one at either end of any number of standard Scalextric Straight Track Sections. For parking vehicles awaiting their turn, Turnouts and Paddocks should be added behind the starting line.

WHETHER THIS TURN SET IS USED WITH A HILL CLIMB OR A DRAGSTER STRIP, IT ENABLES YOUR CAR TO TURN AND BE DRIVEN BACK TO THE PIT STOP OR PADDOCK WITHOUT ANY HANDLING.

**HILL CLIMB AND
DRAGSTER TURN
SET**

Comprises:

- 1 Curved Wye Section.
- 3 Single Lane Curves.

BLOW-OUT

Cat No. A/258.

13 1/2", 35 cm long

SUPER EXCITEMENT

Super thrills and spills with the fabulous Scalextric BLOW-OUT. Drive your car, watch your opponent. PRESS - BLOW-OUT - HE'S CRASHED. Open your throttle and away to win this fantastic race.

The Blow-Out Unit is operated by simple hand controls, these controls operate sprung flaps set in the special track section, if released at the correct moment, as your opponent's front wheel drives on to the flap, a puncture will be simulated and his car will roll off the circuit in a most realistic manner.

A/258

TWIN AUTO-SCREAMS

Cat. No. A/257.

SUPER EXCITEMENT

Engine Screaming, the flag drops, and they're away - roaring round the circuit. The fourth dimension - true to life engine screams mean racing plus 4D realism.

A simple attachment fits to the Hand Throttles giving independent fingertip control of each car's engine scream, whether it is stationary or moving.

(Batteries required: two Ever Ready 1289. Not supplied.)

A/257

HAND CONTROLLER

RACE-TUNED HAND CONTROLLER

A/262

- ★ BUILT-IN DYNAMIC BRAKE
- ★ HEAVY DUTY NICKEL CHROME WIRE 25 ohm CERAMIC RESISTOR
- ★ HEAVY DUTY PHOSPHOR BRONZE CONTACT
- ★ COPPER ALLOY BRUSH ARM
- ★ SCREW TERMINAL BLOCK AND CLIP-IN MOUNT FOR EASY CHANGE RESISTOR VALUE
- ★ FINGER TIP OR THUMB CONTROL
- ★ LOW PRESSURE SPRING
- ★ LIGHT, COOLEASY-TO-HOLD HAND GRIP
- ★ HEAT DISSIPATING STEEL RESISTOR MOUNTING BOLT
- ★ AIR CONVECTION COOLING

W/761

15 OHM CERAMIC RESISTOR

For use in the Race-Tuned Hand Controller, A/262, to operate the advanced enthusiasts Models with special Motor Windings.

A/262

Designed for use with
High Powered Cars

W/761

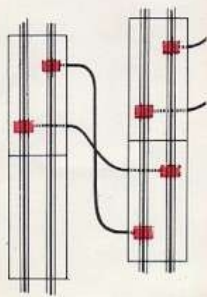

POWER BOOST CONNECTORS

On Large Layouts it is advisable to have additional Power Boosts at points on the Track some distance from the Hand Throttles in order to counteract any voltage drop.

One end is plugged into the track near the Hand Throttle Connections and the other end on the opposite side of the layout, as illustrated, care being taken to cross-connect not only the same lane but also the same rail otherwise a short circuit will occur, in this case reverse one Power Boost Plug.

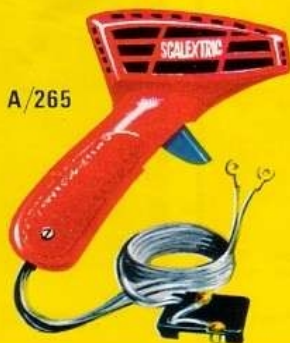

A/252

HAND THROTTLE

A/265

- ★ 35 OHM RESISTOR
- ★ BUILT-IN DYNAMIC BRAKE
- ★ ISOLATED RESISTOR FOR INSTANT COOLING
- ★ FOR USE WITH ALL SCALEXTRIC 1/2nd MODELS
- ★ THUMB OR FINGER TIP CONTROL

A Hand Throttle especially designed to give instantaneous control to all Scalextric 1/2nd Models either moving at a crawl or top speed.

POWER UNIT

Scalextric Sets require a Transformer/Rectifier with an output of 12 volts D.C., 25VA, at NOT LESS THAN 2.5 AMPS. It should incorporate an AUTOMATIC OVERLOAD CUTOFF. Full instructions are given with each set for connecting your Scalextric Circuit to the Transformer. No form of speed control is required in addition to the Hand Throttles which are included in all sets. **Sets do not include a power unit.** your Scalextric Stockist will be only too pleased to give you full advice concerning the recommended unit.

BUILDINGS & ACCESSORIES

BANKING UNITS

MULTIPLE UNITS FOR 4, 6 and 8 LANE TRACKS:

FLY-OVERS of any size for use on 4, 6 and 8 Lane Circuits can be made by joining together the required number of Banking Trusses, A/218, the assembled Trusses are then supported at either end with Banking Units, A/217. BANKING on large Circuits is achieved in a similar manner but in this case only one end of the assembled banking Trusses is supported.

A/217 BANKING UNIT. Comprises 1 Truss, 1 Slide, 1 Rod.

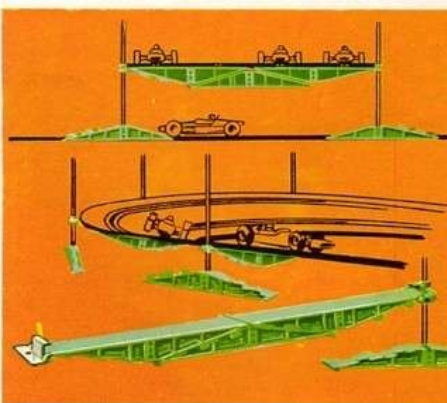

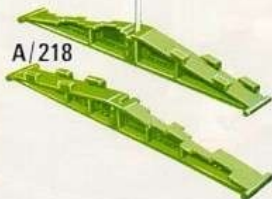

A/218 BANKING TRUSS.

A/219 BANKING TOE CLIP for permanently fixing Banking Units to a Baseboard.

A/217

A/219

BUILDING KITS

Bring realism to your Scalextric Racing Circuit by constructing these superb scale model Trackside Buildings and add life to them by populating them with the wonderful Scalextric 1/32nd Scale Figures (see page 20/21)

K/701 RACING PIT.

K/702 OWNER'S STAND AND RACING PIT.

K/703 CONTROL CENTRE.

Size: base 10 1/2" x 8 3/4" (27 x 22 cm). Height, to base of Flag-pole 10 1/2" (27 cm).

K/704 MARSHAL'S HUT.

K/705 SPECTATORS' STAND.

Populate this Stand with the 'Paint-them-yourself' figures (F/306A and B see above).

CREATE THE TREMENDOUS ATMOSPHERE OF PENT UP EXCITEMENT WHICH ALWAYS EXISTS AT YOUR FAVOURITE FULL SIZE RACING CIRCUIT. AS YOUR LAYOUT AND STABLE OF CARS GROWS, CAPTURE THIS ATMOSPHERE FOR YOURSELF BY ADDING THE FABULOUS RANGE OF SCALEXTRIC TRACKSIDE BUILDINGS, ACCESSORIES AND FIGURES.

SCALEXTRIC

Regd.

**SUPER
124**

**YOUR SUPREME
TEST OF SKILL IN
1/24 SCALE RACING**

**HIGHEST PERFORMANCE,
GREATEST CONTROL,
ACCURATE DETAIL
- THAT'S SCALEXTRIC SUPER 124**

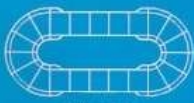

SCALEXTRIC**SUPER****124****SET****200**

For the first time you get three lanes in one piece of track! This means you can build a six lane layout easily and quickly. With each set you get two cars, so that on the three lane circuit you can vary the racing by running the cars in different lanes. The slight variations in the slope and bends on each track will make interesting differences in the racing.

Set Contents:

- 1 24C/100 Alfa Romeo GT
- 1 24C/101 'E' Type Jaguar GT
- 17 feet, 518 cm of three lane track including:**
 - 10 Standard Straights
 - 12 Inner Curves
 - 12 Inner Curve Inner Borders
 - 12 Inner Curve Outer Borders
 - 4 pairs Flat Border Ends
 - 14 Crash Barriers
 - 2 Hand Controllers
 - 44 Track Securing Clips

Power units not included (see page 31)

60'3" x 4'0"

262 cm x 122 cm approx

8'0" x 4'9"

244 cm x 145 cm approx

If a friend brings his own car he can race it on the third track, giving even more interest and variety. There's plenty of opportunity too for expansion. You can build up both your fleet of cars and your track, gradually adding extra straights and curves to make an even more exciting layout. Scalextric gives you a comprehensive set. Track, crash barriers, hand controllers and super speed cars. Everything that makes for really authentic high speed racing. You only need your own power units to start racing.

Set contents:

- 1 24C/100 Alfa Romeo GT
- 1 24C/101 'E' Type Jaguar GT

28 Feet, 853 cm of three lane track including:

- 10 Standard Straights
- 8 Standard Curves
- 8 Inner Curves
- 2 Flyover Bases
- 2 Flyover Summits
- 8 Inner Curve Inner Borders
- 8 Inner Curve Outer Borders
- 8 Standard Curve Inner Borders
- 8 Standard Curve Outer Borders
- 4 Standard Straight Borders
- 2 pairs Flat Border Ends
- 2 pairs Flyover Border Ends
- 29 Crash Barriers
- 2 Hand Controllers
- 26 Pillar Supports $\frac{1}{4}$ "
- 4 Pillar Supports $\frac{1}{2}$ "
- 8 Pillar Supports Top Section
- 60 Track Securing Clips

Power units not included (see page 31)

12' 3" x 6' 0", 373 cm. x 183 cm. ap.

13' 2" x 6' 6", 401 cm. x 198 cm. ap.

12' 6" x 6' 6", 381 cm. x 198 cm. ap.

There are three series of cars – all of them really high powered. The large scale design allows scope for superlative detail, and precise control. And we've incorporated several special exciting features.

G.T. CARS

Really Accurate Detail

These GT cars have an unprecedented scale appearance. Look at the realistic detail on the cars. With the large $\frac{1}{24}$ th scale there is great scope for really accurate and authentic model racing cars.

New Design Guide Blade

The new guide blade is forward mounted for greater stability and has been specially designed to resist fracture on impact. Note also the pivot in the guide blade. It gives greater control when cornering, because there is no strain or tension from pulling wires. These new features will greatly increase your control over your car.

Bevel Gears

The power developed by the motor is transmitted efficiently to the wheels with minimum friction loss. This is ensured by using precision components so that all moving parts engage perfectly, with minimum wear and tear.

Precision-Made Axle and Axle Bearings

Yet another feature that's specially engineered for a smooth transmission of power from motor to wheels. The carefully balanced components allow you to use maximum power efficiently.

Die-Cast Wheel Hubs

These are cast as one unit so that the wheels are always concentric and true.

High Hysteresis Tyres with Fine Annular Tread for Acceleration, Braking and Cornering

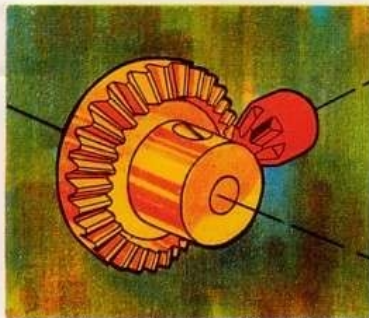

These tyres are made in super soft, high grip rubber. The tread is designed to give smooth even running with maximum grip. The special cling rubber really hugs the track. You get complete control at every point.

G.T. 'E' TYPE JAGUAR SPORTS SALOON 24C/101

G.T. ALFA ROMEO SPORTS SALOON 24C/100

RACE OUTDOORS!

No more space problems! If you want a big layout to develop real speed, you needn't be cramped. Just set up the track out of doors. It's rugged and weatherproof. The stainless steel pick-up rails will keep their conductivity whatever the conditions. Even a heavy shower of rain will not damage your layout. Just make sure all the parts are dry again before you start racing, and to keep it clean it should be covered when not in use.

ACE G.T. CARS

These have all the features of the GT cars plus . . .

Mechanical Front Wheel Braking

The dynamic braking in the hand controller is reinforced by special brakes on the front wheels. As you brake, the weight of the car is thrown forward. A brake pad is forced against the front wheel and the car slows down smoothly and positively. With this feature you can approach a bend at top speed and get round safely, and yet leave your braking till the last moment.

High Torque Motor

The new Scalextric Super 124 motor incorporates the most advanced construction techniques and gives the finest performance possible. The high torque motor develops as much as 45,000 r.p.m. Just think what that means in terms of power and what a challenge to control! Packed with unique features, cunningly engineered to give super performance, it offers the racing enthusiast all the potential ever dreamed of.

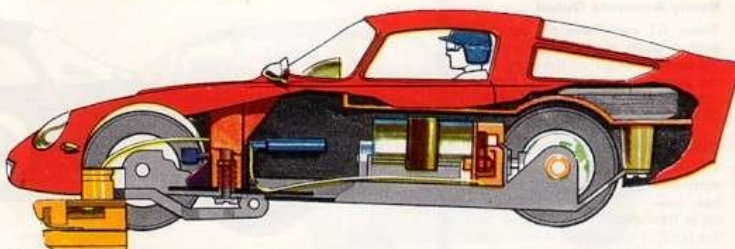

Exhaust Pipes and Chromium Components in Impact-Resistant Nylon

Extra detail and superb finish combined with durability — that's Scalextric Super 124. The plated parts are all made of impact-resistant nylon, so despite spills your car will still look good.

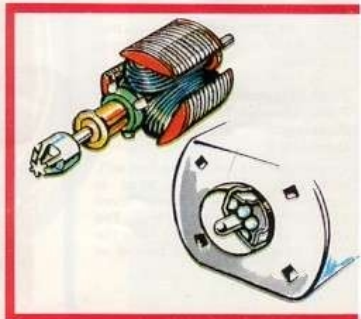

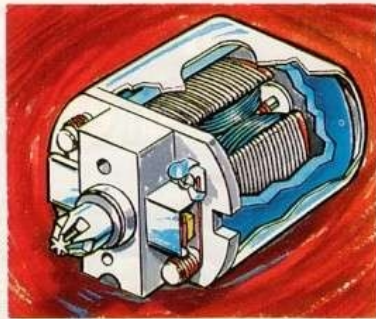

During development prototypes of the super 124 cars have been run under test conditions at a genuine road speed exceeding 40 m.p.h. Many of them have run a distance equivalent to competing in the whole of the Monte Carlo Rally. The new track too, has proved itself. With the smooth rigid surface, the cars have reached their top speed with amazing rapidity and their road holding is perfect. Only after the experts had thoroughly examined performance under rigorous test conditions was the system finally accepted.

ACE G.T. ALFA ROMEO SPORTS SALOON 24C/602

ACE G.P. CARS

Die-Cast Chassis With All Running Components In One Complete Unit

The whole of the chassis is in solid metal, cast as one piece for extra solidity and strength. It can never warp and holds all the running components in perfect balance in one complete unit.

Easy To Remove One Screw Engine

The unique construction of GP cars allows the motor to be removed and replaced with a minimum loss of time - important when endurance racing! Easy clip fits on most components speeds servicing procedure and allows the motor to be removed from the chassis after unscrewing just one screw.

Heavy Duty Drop Arm

Made out of solid metal and mounted on a strong pin, the new drop arm will resist fracture even in the fastest crash. It has been cleverly designed for control, balance and stability in the car at all times.

Self Lubricating Back Axle

Unique oil pads around the back axle keep it well lubricated and require minimum attention.

Tough Nylon Front Suspension Unit with Camber Compensation

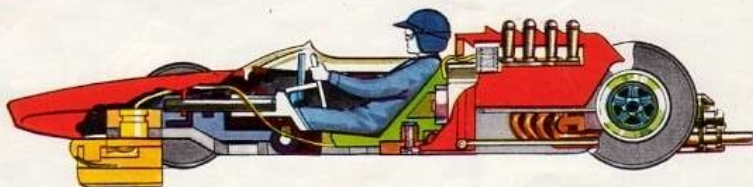

The front suspension is extra strong and hard-wearing. To give better road holding, especially on corners, the front axle pivots. This means that the front wheels adjust automatically to any change and camber and revolve independently so that the chances of your car being thrown off the track are considerably lessened.

Attention to Detail

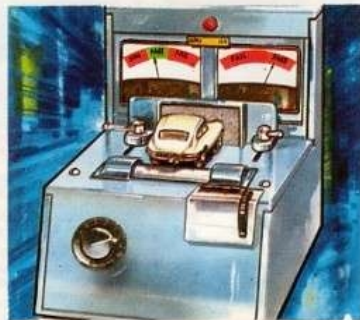

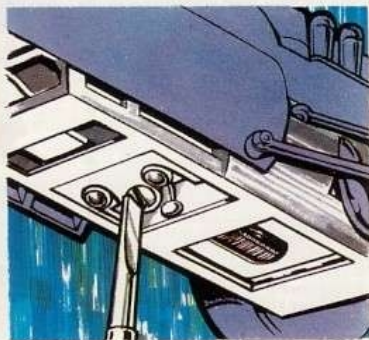

Take a look at the back of the car and see the realistic exhaust system. There's also a fully detailed cockpit with instrument panel, and removable driver. Every detail in the car is completely authentic.

ACE G.P. INDIANAPOLIS SPECIAL 24C/500

ACE G.P. FERRARI V8 24C/501

RIGOROUS TESTING

No Scalextric product is put on the market without extensive performance tests. But with the Scalextric Super 124 the programme was even more exhaustive than usual. Our development engineers put the cars and track through test after test. Special equipment simulated hours of racing at its most exacting. Each component was tested to destruction, and every weakness detected and eliminated.

TRACK-SUPER 124

(12", 30.5 cm. wide)

A really fine track, in super tough plastic. It has three lanes to each track section, making it easily adjustable to six lane racing. The track is weather resistant, with non-corrosive rails. Has 'spin' out aprons for high speed power slides on corners and the hand controller can be connected to any straight.

- ★ THREE-LANE SECTIONS
- ★ SIX-LANE EXTENSIBILITY
- ★ SUPER TOUGH PLASTIC
- ★ STAINLESS STEEL RAILS
- ★ EVEN MATT SURFACE
- ★ SPIN-OUT BORDERS
- ★ HAND THROTTLE SOCKETS IN EVERY STRAIGHT
- ★ PERFECT ELECTRICAL CONTINUITY
- ★ WEATHER RESISTANT FOR OUTDOOR USE

24T/1 Standard Straight (10.69", 27.15 cm.)

24A/151 HAND CONTROLLER

1. Comfortable thumb or finger control
2. Balanced pistol grip away from heat source
3. Louvers for instant convection cooling
4. Low pressure return spring
5. Heat dissipating steel mounting bolt
6. Clip-in mount for quick change of a resistor value
7. Heavy-duty phosphor bronze contact
8. Strain relief for wires to protect assembly from shock
9. Copper alloy brush
10. Heavy-duty nickel chrome wire ceramic resistor (25 ohm and 15 ohm supplied)
11. Screw terminal block for easy change of resistor value
12. Steel roller for smooth operation

GREAT FOR CLUB RACING

SCALEXTRIC

SUPER

124

POWER UNIT

To get the best results from Scalextric Super 124 you need a separate power unit for each car. We recommend using power units with outputs of 12 volts D.C., 26VA, at not less than 2.5 amps. and each should incorporate an AUTOMATIC THERMAL OVERLOAD CUT-OUT.

GREAT FOR CLUBS

If you're a club man, Scalextric Super 124 is just what you've been waiting for. Your club circuit gives you a chance to show what you can do with these extra fast cars. Their dynamic acceleration and superb braking put you in full command. Now more than ever, winning is a test of your skill. Scalextric Super 124 is a complete

system. The precision track brings out the best performance in really fast cars. It's easy to assemble, perfect electrically, and the stainless steel rails will not corrode or deteriorate. When your club circuit is next altered, make sure you install Scalextric Super 124!

Our designers were asked to produce the best
1/24 scale system. They did, and it's yours in the

SCALEXTRIC ^{Regd.} **SUPER 124**

As with real Racing Cars your Scalextric Car may from time to time require servicing. Official Scalextric Service Dealers have been appointed throughout the country and they are fully equipped and qualified to effect rapid servicing and repairs to all Scalextric Equipment. Scalextric Service Dealers also carry a comprehensive range of Spares for those enthusiasts who wish to carry out their own servicing.

Scalextric approved Service Dealers are provided with this window Display Badge.

This catalogue illustrates and refers to a number of items which are the subjects of Patent and Registered Designs in Great Britain and many other important countries throughout the world. Details of these are available from Minimodels Ltd., Havant, Hants.

Minimodels Ltd., reserve the right to alter designs and specifications without prior notice. This catalogue supersedes all previous editions.
