MODEL MOTOR RACING

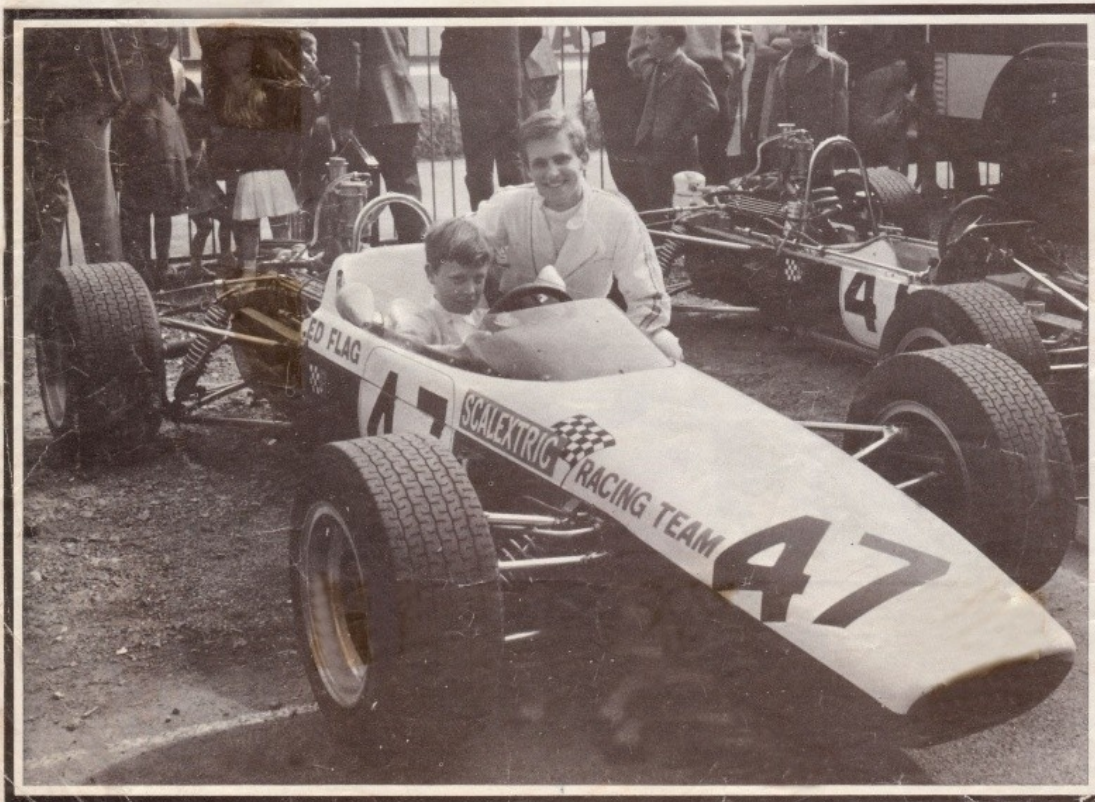

SCALEXTRIC IS **REAL** MOTOR RACING

Scalextric gives you the thrusting excitement of the real thing, puts YOU right there in the driver's seat.

The power is real, the scale is real, the thrills are real as you battle the banked bends, surge through the Goodwood chicane to take the chequered flag as you roar home down the straight. Feel the clench of real excitement as you miss the race-smashing threat of a blow-out by inches; feel the surge of pride as you take the trophy to the roar of the packed stands. Scalextric make *everything* you need to make motor racing a reality in your home.

SPORTS 30 SET

- ☐ SKID CHICANE FOR THRILLS AND SPILLS
- ☐ TWO UP-TO-THE-MINUTE COMPETITION CARS

Set contains:

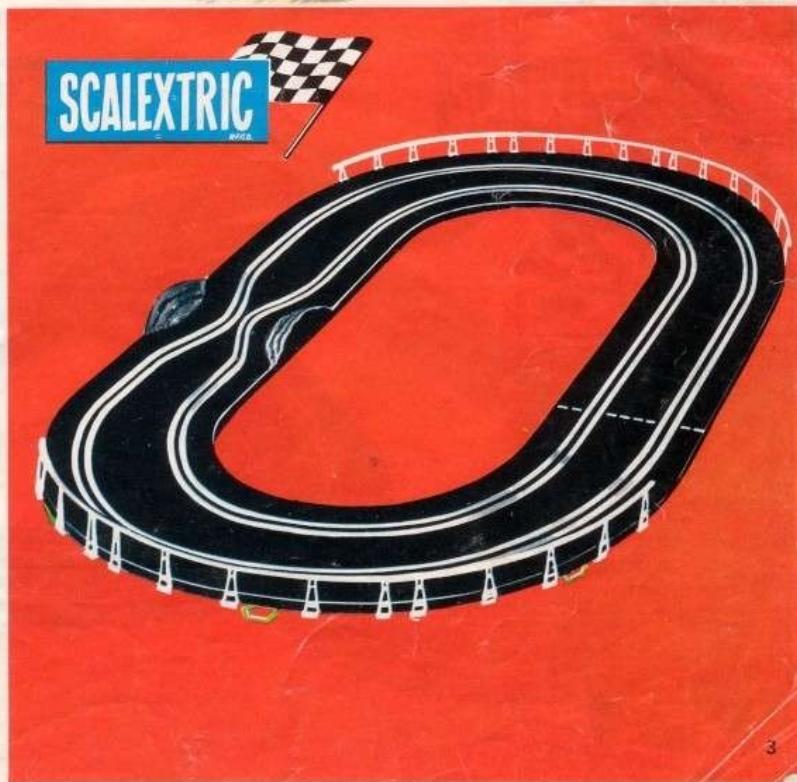

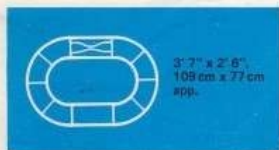

- 1 C/3 Javelin Special Competition Car
- 1 C/4 Electra Special Competition Car

8' 4" 254 cm of Track comprising:

- ★ 8 Standard Curves
- ★ 1 SKID CHICANE
- ★ 8 Banking Plates
- ★ 1 Starting Line Straight
- ★ 4 Crash Barriers
- ★ 2 Hand Throttles (A/265)

The Owner of a Scalextric Set has in his hands the starting point from which to build a really complete Model Motor Racing system. With regular additions of Track, Cars, Buildings, Figures and Accessories, any set will soon grow into a super 4, 6 or 8 lane layout with all the fabulous atmosphere of a full size Motor Racing Circuit.

(Power unit not included — see page 20).

SPORTS 31 SET

★ FIGURE-EIGHT LAYOUT FOR EQUAL LANE LENGTHS ★ TWO UP-TO-THE-MINUTE COMPETITION CARS

Set contains:

1 C/3 Javelin Special Competition Car

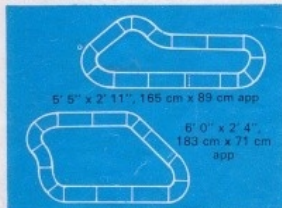

1 C/4 Electra Special Competition Car

12' 6", 381 cm of Track comprising:

- ★ 4 Standard Curves
- ★ 6 Crash Barriers
- ★ 2 Double Inner Curves
- ★ 5 Straights 'D'
- ★ 4 Track Supports
- ★ 2 Hand Throttles (A/265)
- ★ 2 Inner Curves
- ★ 12 Banking Plates
- ★ 1 Straight 'C'
- ★ 1 Starting Line Straight
- ★ 2 Track Borders

With a Scalextric '31' Set you have the basis of a really dramatic layout. The Figure-8 Circuit (5' 8" x 2' 2", 173 cm x 66 cm as illustrated) gives exciting equal racing and you can keep on adding track for greater interest and more thrills.

(Power unit not included — see page 2)

TEAM 35 SET

★ REALISTIC SCALEXTRIC TEAM CARS

★ CHANGE-OVER TRACKS FOR EQUAL LANE LENGTHS

Set contains:

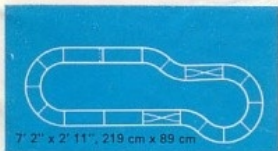

- 1 C/19 Chequered Flag Racing Car (white)
- 1 C/19 Chequered Flag Racing Car (yellow)

16' 0", 488 cm of Track comprising:

- ★ 12 Standard Curves
- ★ 1 Starting Line Straight
- ★ 6 Crash Barriers
- ★ 2 Hand Throttles (A/265)
- ★ 3 Straights 'D'
- ★ 2 Change-over Tracks
- ★ 10 Banking Plates

With this set you can develop all the skills of the ace drivers who handle the Scalextric/Chequered Flag Racing cars on the circuits of the world. Change-over tracks give equal lane lengths to your layout (7' 2" x 2' 11", 219 cm x 89 cm as illustrated).

(Power Unit not included - see page 20)

RALLY 45 SET

★ TWO EXCITING RALLY MINI-COOPERS
★ 90° CROSS-OVER FOR THRILLS AND EXCITEMENT
★ FIGURE-EIGHT CIRCUIT TO GIVE EQUAL
LANE LENGTHS

Set contains:

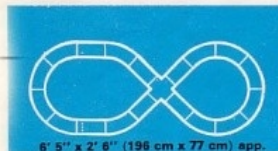

1 C/7 Rally Mini-Cooper (Green)
1 C/7 Rally Mini-Cooper (Red)

15 2", 463 cm of Track comprising:

- | | |
|--------------------------|----------------------------|
| ★ 12 Standard Curves | ★ 4 Straights 'C' |
| ★ 1 Straight 'D' | ★ 1 Starting Line Straight |
| ★ 1 Right-Angle Crossing | ★ 8 Crash Barriers |
| ★ 8 Banking Plates | ★ 2 Hand Throttles (A/265) |

Super Fast Rally Mini-Coopers with a 90° Cross-Over test your skill to the limit with the extra excitement of avoiding a crash at the crossing.

(Power Unit not included - see page 20)

GRAND PRIX 50 SET

- ★ TWO EXCITING GRAND PRIX CARS
- ★ LAP COUNTER FOR UP TO 15 LAPS
- ★ FLY-OVER BRIDGE FOR EQUAL LANE LENGTHS

Set contains:

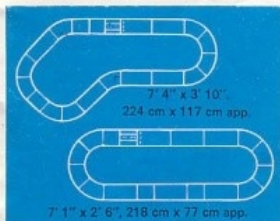

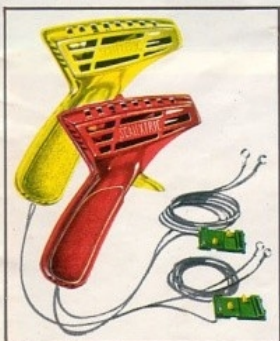

- 1 C/5 Europa Vee Grand Prix Special
- 1 C/6 Panther Grand Prix Special

16' 8", 508 cm of track comprising:

- | | |
|----------------------------|------------------------------|
| ★ 10 Standard Curves | ★ 2 Fly-over Bridge Supports |
| ★ 3 Straights 'C' | ★ 6 Crash Barriers |
| ★ 5 Straights 'D' | ★ 12 Banking Plates |
| ★ 1 Starting Line Straight | ★ 2 Hand Throttles (A/265) |
| ★ 1 Lap Counter | |

These cars embody the fantastic Power Sledge for super speed and control. The automatic lap counter and Figure-8 Circuit (7' 6" x 2' 6", 229 cm x 77 cm as illustrated) give exciting equal racing with all your concentration on driving.

(Power unit not included - see page 20)

G.T. SPEED 69 SET

- ★ BANKED CURVE FOR EXTRA SPEED
- ★ TWO SUPERFAST NEW GT CARS
- ★ CHANGE-OVER TRACKS FOR EQUAL RACING

Set contains:

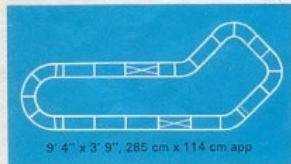

- 1 C/15 Ford Mirage GT
- 1 C/16 Ferrari P4 GT

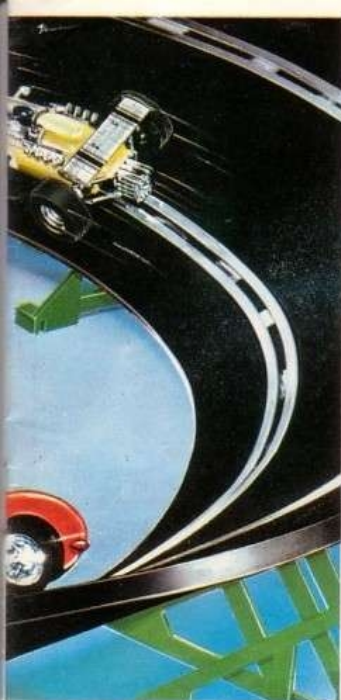

20' 6", 625 cm of track comprising:

- ★ 7 Straights 'D'
- ★ 2 Straights 'C'
- ★ 1 Starting Line Straight
- ★ 6 Standard Curves
- ★ 4 Speed Banking Curves
- ★ 1 Pair Banking Approach Pieces
- ★ 4 Banking Supports
- ★ 2 Change-Over Tracks
- ★ 8 Crash Barriers
- ★ 14 Banking Plates
- ★ 2 Hand Throttles (A/265)

(Power Unit not included - see page 20)

The 45° banking and the special lead-in straight sections give a smooth, progressive banked curve. These enable you to corner at really tremendous speeds and give extra thrills to your circuit.

- ★ TWO HIGH SPEED BANKED CORNERS
- ★ FLY-OVER FOR EQUAL LANE LENGTHS

G.P. SPEED 12E SET

Set contains:

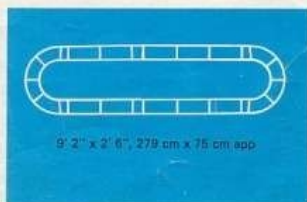

- 1 C/5 Europa Vee Grand Prix Special
- 1 C/6 Panther Grand Prix Special

23' 0", 702 cm of Track comprising:

- ★ 10 Banked Curves
- ★ 4 Banking Approach Pieces
- ★ 2 Straights 'A'
- ★ 1 Straight 'C'
- ★ 10 Straights 'D'
- ★ 1 Starting Line Straight
- ★ 2 Standard Curves
- ★ 11 Banking Supports
- ★ 12 Crash Barriers
- ★ 8 Banking Plates
- ★ 2 Hand Throttles (A/265)

Extra speed needs extra skill. Fly-over layout gives equal racing (10' 0" x 4' 3", 305 cm x 130 cm as illustrated).

(Power Unit not included — see page 20)

GRAND PRIX 75 SET

- ★ TWO FAST NEW G.P. CARS
- ★ CHANGE-OVER TRACKS
- ★ PIT STOP SET
- ★ SKID CHICANE
- ★ LAP COUNTER
- ★ FLY-OVER BRIDGE

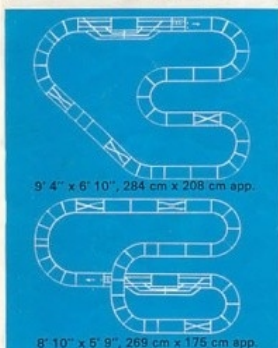

Set contains:

1 C/8 Lotus G.P. car 1 C/9 Ferrari G.P. car
32' 6", 991 cm of Track comprising:

- ★ 10 Standard Curves
- ★ 1 Straight 'A'
- ★ 7 Straight 'D'
- ★ 2 Change-Over Tracks
- ★ 1 Lap Counter
- ★ 2 Bridge Supports
- ★ 22 Banking Plates
- ★ 12 Outer Curves
- ★ 3 Straight 'C'
- ★ 1 Starting line Straight
- ★ 1 Pit stop Set
- ★ 1 Skid Chicane
- ★ 14 Crash Barriers
- ★ 2 Hand Throttles (A/265)

The fabulous '75' set gives you a long layout in a compact space (8' 10" x 4' 0", 269 cm x 120 cm as illustrated). It includes lots of realistic extras.

(Power Unit not included – see page 20)

GRAND PRIX 80 SET

- ☐ FOUR LANES
- ☐ FOUR HAND THROTTLES
- ☐ FOUR CARS WITH SUPER FAST POWER SLEDGE MOTOR UNITS
- ☐ ALTERNATIVE LARGE TWO LANE CIRCUITS

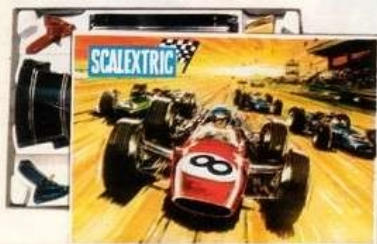

2 C/5 Europa Vee G.P. Cars
2 C/6 Panther Special G.P. Cars

29' 0" (884 cm) of track (two lane) including:

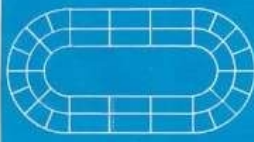

- ★ 8 Standard Curves
- ★ 16 Outer Curves
- ★ 10 Straight 'D'
- ★ 2 Starting Line Straights
- ★ 10 Crash Barriers
- ★ 16 Banking Plates
- ★ 36 Lane Clips
- ★ 4 Hand Throttles (A/265)
- ★ 2 Power Boost Connectors

Four lane Racing with the very latest Scalextric Cars brings super excitement to all the family.

Power units not included. TWO 12 volt D.C. 2.5 amp units are recommended for this set.

4 Lane Layouts

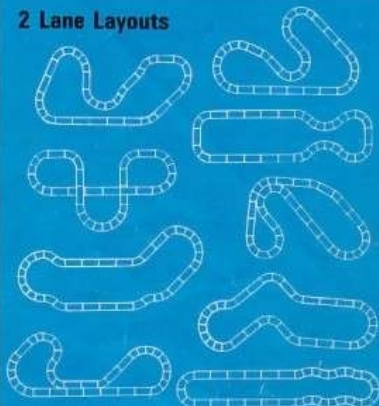

6' 11" x 3' 6", 211 cm x 107 cm

6' 7" x 4' 4", 201 cm x 132 cm

2 Lane Layouts

SCALEXTRIC

G.P. Models

- ★ RACE-TUNED FOR SUPER SPEED
- ★ FORWARD MOUNTED GUIDE FLAG
- ★ SOFT, HIGH-GRIP TYRES
- ★ RAPID ACCELERATION
- ★ PERFECT BRAKING POWER
- ★ SUPERB ROAD HOLDING

To operate these high powered models, use only the Scalextric Race-Tuned Hand Controllers (Cat No A/270 and A/262) or the Hand Throttle (Cat No A/265).

To add variety and interest to your stable of cars the colours shown may, from time to time, be changed.

Race-Tuned Hand Controller

A/270

THE HEAVY DUTY HAND CONTROLLER FOR THE ENTHUSIAST

- ★ Built-in dynamic brake
- ★ 25 ohm ceramic resistor fitted
- ★ 15 ohm resistor included as spare
- ★ Sensitive low pressure spring
- ★ Special features prevent overheating

A/270

A/265

Hand Throttle

A/265 A Hand Throttle giving precision control of all Scalextric 1/32nd scale models. Special features include

- ★ Built-in dynamic brake
- ★ 35 ohm resistor
- ★ Balanced Pistol Grip
- ★ Thumb or Finger Tip Control

Race Track

Scalextric Track is made of tough flexible plastic with a perfect surface for high speed racing. It is designed for 2, 4, 6 or 8 lane layouts, and there are no loose accessories needed. Scalextric Track is easy to assemble, with connectors built into each section and there are no special track or side projections. Power can be connected to any Straight 'D'.

- PT/51** Standard Curve (45°)
PT/52 Inner Curve (45°)
PT/53 Outer Curve (22½°)
PT/54 Half Standard Curve (22½°)
PT/55 Half Inner Curve (22½°)

W.C.B.

Bridges

The Scalextric system allows you to make circuits of many different kinds. Bridges are available to cross one track over another whenever you want extra interest in your layout or where space is limited.

PT/68 FLY-OVER BRIDGE

Comprises:

- 1 straight 'D' 2 crash barriers
- 2 straights 'C' 2 bridge supports

Overall track length 27 1/4", 70 cm.

PT/70 BRIDGE-SUPPORTS ONLY

(2 per set)

These can be used to make a fly-over bridge with your existing track.

A/248 HUMP BACK BRIDGE

This is a complete bridge as a single unit to add extra excitement and realism to your Scalextric circuit. The parapets can be simply clipped on to the side of the track without the use of any loose accessories. Length 13 1/2", 35 cm.

You can make fly-overs for four lane circuits with two PT/68 fly-over bridges. Six and eight lane fly-overs can be built using banking units and trusses, A/217 and A/218 (see page 24).

Chicanes

Chicanes add extra excitement and thrills to your Scalextric layout and call for even more skill in driving.

PT/74 SHORT CHICANE SET

- 2 pieces to same length as two straights 'D'.

27 1/4", 70 cm. long

PT/75 CHICANE STRAIGHT

- 13 1/2", 35 cm long (centre piece only)

PT/76 LONG CHICANE SET

- 3 pieces to same length as three straights 'D'.

41 1/4", 105 cm long

PT/77 GOODWOOD CHICANE

- Made up of: 2 converging tracks, 1 straight 'C' offset, 2 curved tracks, 3 black borders, 1 Goodwood Wall, 2 half tyre markers, 12 marker cones, 12 straw bales, 6 hurdles.

Overall length 48 1/4", 122.5 cm (same length as 3 straights 'D' plus 1 straight 'C').

Two Goodwood Chicane sets make an excellent 4 lane chicane.

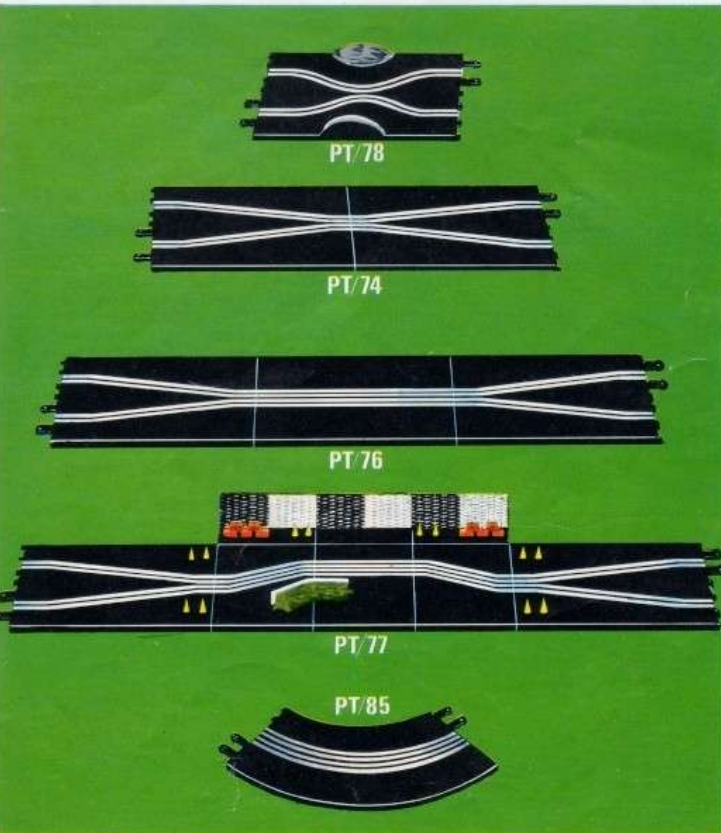

PT/78 SKID CHICANE

- Special skid pan surface to give you the thrill of controlling a skidding car at speed.

Length 13 1/2", 35 cm.

PT/85 STANDARD CURVE CHICANE (45°)

You can use this to give you the extra excitement of a long chicane on a bend - several may be joined together - in conjunction with the Short Chicane Set (PT/74). It can also continue a straight chicane into a corner with the Long Chicane Set (PT/76).

PT/74

PT/76

PT/77

PT/85

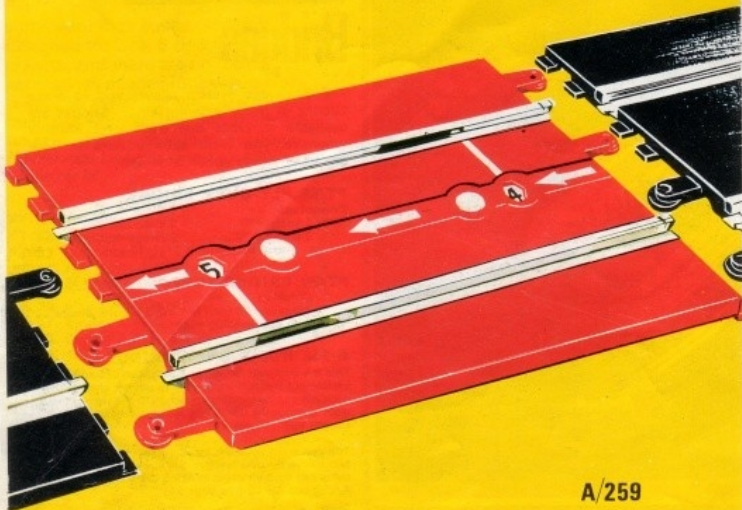

SCALEXTRIC

Lap Counter

Cat No. A/259 6 $\frac{1}{2}$ ", 17.5 cm long.

Every time a car passes, the Scalextric Lap Counter records it. It counts up to 15 laps for 2 cars on a 2 lane circuit and has a simple 're-set to zero' device.

The Lap Counter is made in bright red for easy identification. So it is simple to check how many circuits each car has completed. There are no side projections, so that 2, 3, or 4 Lap Counters can be used along side each other on 4, 6 and 8 lane circuits.

A/259

Electric Lap Recorder

Cat No. A/260

This precision Electric Lap Recorder A/260 can be built into any Scalextric circuit. It has an ingenious electro mechanical action and records up to 999 laps. Each lane can be simply re-set to zero at any time. Extra sets can be added for 4, 6 or 8 lane racing. Overall track length 13 $\frac{1}{2}$ ", 35 cm, as straight 'D'.

SPECIAL FEATURES:

- ★ **Two Recorder Units**
- ★ **Special Track, no moving parts**
- ★ **Electrical action**
- ★ **Clip together unit design**
- ★ **Duplicate numbers to identify track and recording units**
- ★ **Quick re-set manual control**
- ★ **Records up to 999 laps**

A/260

Pit Stop set and Paddock

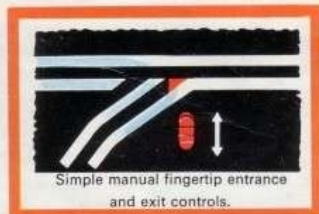

Make an even more realistic layout with these exciting Scalextric extras.

PIT STOP SET PT/90

Manually operated

- Comprises 1 "W" Turnout
1 "Y" Turnout
1 "S" Lay-By
1 "T" Lay-By

(Cable control units are NOT included in this set)

Scalextric Pit Stop Track sections are available separately to allow you to make true to life pit stops for large multi-lane racing. Operation is simple and the Turnouts may be used in either direction.

- PT/91 "W" Turnout
PT/92 "X" Crossing
PT/93 "Y" Turnout
PT/94 "Z" Crossing
PT/95 "S" & "T" Lay-By

You can build Pit Stops for 2, 4, 6 or 8 lane racing. The ways to make up 2, 4 and 6 lane circuits are illustrated, and for 8 lane racing the large 6 lane layout can be extended one stage further. Alternatively you can build two 4 lane Pit Stops on opposite sides of the track to conserve space.

PIT STOP CABLE CONTROL SET PT/96

Set of four cable Hand Controls to operate entry and exit turnouts on Pit Stop Set. (These are not included in the PT/90 set or the individual Turnouts 'W' and 'Y').

THE BASIC SET

4 LANE LAYOUTS

6 LANE LAYOUTS

PADDOCK A/251

This can be used with PT/91 Turnout 'W' on 2 lane circuits. For 4, 6 or 8 lane circuits PT/92 Crossing 'X' is also required. Electric switches enable parked cars to be left in the Paddock while other cars are using the circuit. It is an ideal accessory for use with Hill Climb Layouts. (See page 20.)

Dragster Turn and Hill Climb

The illustration shows a simple Hill Climb circuit, and for extra realism you can add Scalextric Turnouts and Paddocks (see page 19) behind the Starting Line to park cars awaiting their turn.

An excellent Dragster Strip can be made using two sets, one at either end of any number of Standard Straight Track Sections. Turnouts and Paddocks should be added behind the starting line for parking and marshalling cars.

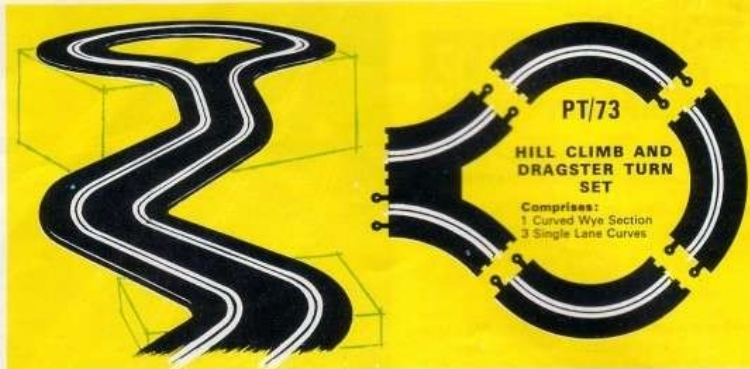

Whether this turn set is used with a Hill Climb or a Dragster Strip, it enables cars to turn and be driven back to the Pit Stop or Paddock without any handling.

Blow-Out

Cat No. A/258

Extra thrills, extra excitement and a real test of skill – all these can be yours with this fabulous Scalextric Blow-Out Unit. Drive your car, watch your opponent. PRESS – BLOW-OUT – HE'S CRASHED! Open your throttle and away to win this fantastic race.

The Scalextric Blow-Out Unit A/258 consists of a specially made track section 13½", 35 cm long (same length as straight 'D') and two simple hand controls. These controls operate sprung flaps set in the special track section and act instantly when the button is pressed. If released at the right time just as your opponent's front wheel drives onto the flap a puncture will be simulated and his car will roll off the circuit in a most realistic manner.

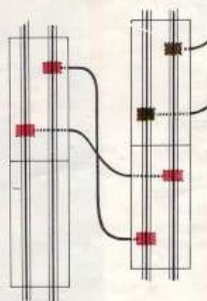

Power Boost Connectors

Cat No. A/252

On large layouts it is advisable to have extra Power Boosts at points on the track some distance from the hand throttles to counteract any voltage drop.

The A/252 is a simple unit and it should be fitted as illustrated with one end plugged into the track near the hand throttle connections and the other end on the opposite side of the layout. Take care to cross-connect not only the same lane but also the same rail, otherwise a short circuit will occur which can be corrected by reversing one Power Boost Plug.

Power unit

Scalextric Sets require a Transformer/Rectifier with an output of 12 volts D.C. at NOT LESS THAN 2.5 AMPS. It should incorporate an AUTOMATIC OVERLOAD CUT-OUT. Full instructions are given with each set for connecting your Scalextric Circuit to the Transformer. No form of speed control is required in addition to the Hand Throttles which are included in all sets. **SETS DO NOT INCLUDE A POWER UNIT.** Your Scalextric Stockist will be only too pleased to give you full advice concerning the recommended unit.

Flying Leap

A/269

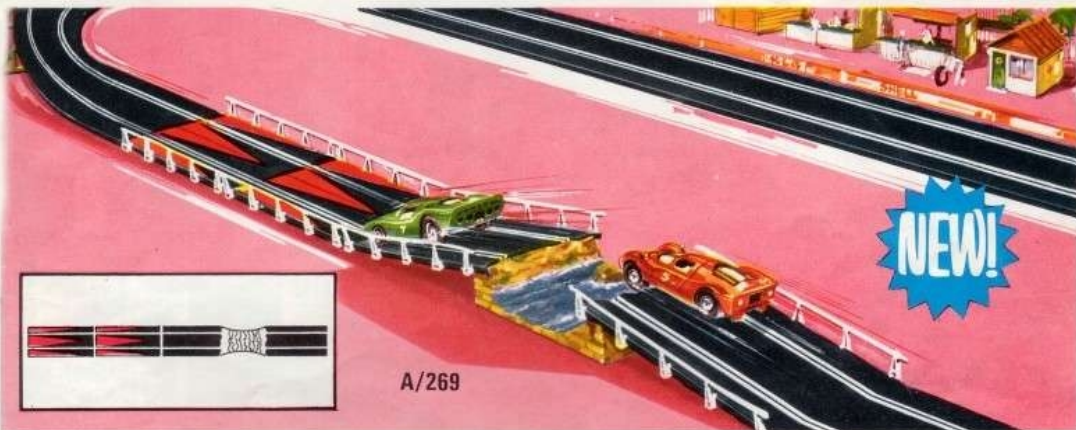

Super excitement from Scalextric. Flying Leap takes you flashing across a break in the roadway – needs *extra* skill and judgement. Do it successfully and land safely on the other side of the gap – and zoom away. One mistake – and you're on a crash course – right out of the race. Even though special embossed track sections help to guide the car into the slot when it lands on the other side, only the Scalextric champions win through. The Flying Leap is suitable for all Scalextric existing cars with the exception of C/99, Fiat 600.

SCALEXTRIC

F 306B FIVE SEATED FIGURES

F/306A

F/306B

Banking Units

Multiple Units for 4, 6, and 8 lane tracks. These can be used to make fly-overs of any size. Just join together the required number of Banking Trusses (A/218) and after assembly support at both ends with Banking Units (A/217).

Banking on large circuits is achieved in the same way, but only one end of the assembled banking trusses should be supported.

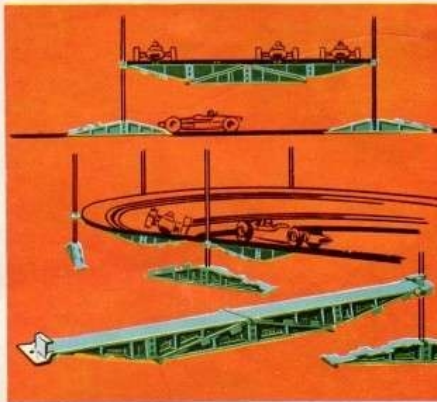

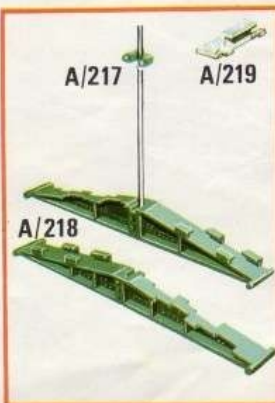

A/217 BANKING UNIT

Comprises 1 Truss, 1 slide, 1 Rod.

A/218 BANKING TRUSS

A/219 BANKING TOE CLIP

to fix Banking Units permanently to a baseboard.

Building Kits

Create the tremendous atmosphere of tense excitement which always exists at meetings on your favourite full size full racing circuit. As your layout and stable of cars gets bigger and better, capture this atmosphere for yourself with the fabulous range of Scalextric Trackside Buildings, Accessories and Figures.

With these superb scale model Trackside Buildings you can add extra fun and realism to your racing circuit. They are simple to assemble and give a wonderful effect when used in conjunction with Scalextric Scale Figures (see pages 22/23).

SUPER 124

YOUR SUPREME TEST OF SKILL IN 1/24 SCALE RACING

Scalextric Super 124 is a complete racing system in perfect scale, with high speed cars, superb track and precision hand controllers, all specially designed to give the greatest possible speed, control and excitement. During development prototypes of the cars have been run under test conditions at a genuine road speed exceeding 40 m.p.h. Many of them have run a distance equivalent to competing in the whole of the Monte Carlo Rally.

The track, too, has proved itself. With the smooth rigid surface the cars reach their top speed with amazing rapidity and their road holding is fantastic. The stainless steel rails and cunningly engineered connections give perfect electrical continuity and an even surface. And now there are special banked track sections to enable the cars to corner at really fantastic speeds.

GREAT FOR CLUBS

If you're a club man, Scalextric Super 124 is just what you've been waiting for. Your club circuit gives you a chance to show what you can do with these extra fast cars. Their dynamic acceleration and superb braking put you in full command. Now more than ever, winning is a test of your skill. Scalextric Super 124 is a complete

system. The precision track brings out the best performance in really fast cars. It's easy to assemble, perfect electrically, and the stainless steel rails will not corrode or deteriorate. When your club circuit is next altered, make sure you install Scalextric Super 124!

SCALEXTRIC ^{SUPER} 124

200 SET

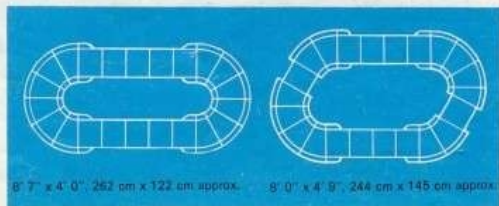

- ★ TWO SUPER G.T. CARS
- ★ THREE LANES FOR EXTRA EXCITEMENT

Set contains

- 1 24C/100 Alfa Romeo GT
- 1 24C/101 'E' Type Jaguar GT
- 17' 0", 518 cm of three lane track comprising
- ★ 10 Standard Straights
- ★ 12 Inner Curves
- ★ 12 Inner Curve Inner Borders
- ★ 12 Inner Curve Outer Borders
- ★ 4 pairs Flat Border Ends
- ★ 14 Crash Barriers
- ★ 2 Hand Controllers
- ★ 44 Track Securing Clips

The Super 124 Set 200 gives you an exciting three lane circuit that can easily be built up to six lanes with extra track. With each set you get two cars, so that on the three lane circuit you can vary the racing by running the cars in different lanes. The slight variations in bends on each lane will make interesting differences in the racing.

Power Units not included
(see page 31)

★ TWO FAST GT CARS ★ FIGURE-EIGHT
LAYOUT FOR EQUAL LANE LENGTHS

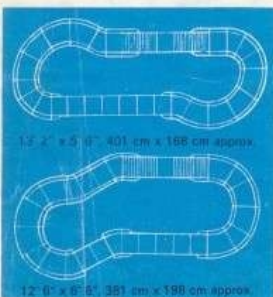

Set contains

- 1 24C/100 Alfa Romeo GT
- 1 24C/101 'E' Type Jaguar GT
- 28' 0"; 853 cm of three lane track comprising
- ★ 10 Standard Straights ★ 8 Standard Curves
- ★ 8 Inner Curves ★ 2 Flyover Bases
- ★ 2 Flyover Summits ★ 8 Inner Curve Inner Borders
- ★ 8 Inner Curve Outer Borders ★ 8 Standard Curve
- Inner Borders ★ 8 Standard Curve Outer Borders
- ★ 4 Standard Straight Borders ★ 2 Pairs Flat
- Border Ends ★ 2 Pairs Flyover Border Ends
- ★ 29 Crash Barriers ★ 2 Hand Controllers
- ★ 26 Pillar Supports 1"
- ★ 4 Pillar Supports 11/16"
- ★ 8 Pillar Supports Top Section
- ★ 60 Track Securing Clips

The exciting Figure-Eight layout (12' 3" x 6' 0", 373 cm x 183 cm as illustrated) gives you challenging equal racing. Two cars are provided, so if a friend brings his own car and controller he can race it on the third track, giving even more interest and variety.

Power units not included (see page 31)

210 SET

G.T.CARS

GT 'E' TYPE JAGUAR 24C/101

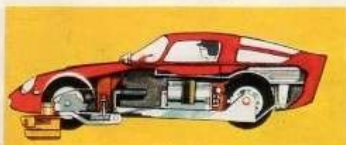

GT ALFA ROMEO 24C/100

These GT cars are perfect scale models with several exciting features for extra speed and control. The forward mounted guide blade and high hysteresis tyres give fantastic road holding. Bevel gears allow efficient power transmission and together with precision-made axles and axle bearings ensure minimum wear and tear and friction loss.

ACE G.T.CARS

ACE GT 'E' TYPE JAGUAR 24C/603

ACE GT ALFA ROMEO 24C/602

These have all the features of the GT car plus several Scalextric extras! The dynamic braking in the hand controller is re-inforced by special mechanical brakes on the front wheels. This means you can approach a bend at top speed and leave your braking to the last minute. These cars are also fitted with a high torque motor developing as much as 45,000 r.p.m. Just think what that means in terms of power and what a challenge to control!

ACE G.P.CARS

ACE GP LOTUS INDIANAPOLIS 24C/500

ACE GP FERRARI V8 24C/501

Every detail in these cars is completely authentic, including a fully fitted cockpit and removeable driver. Each car has a die-cast chassis with all the running components in one complete unit giving extra solidity and strength which together with the heavy duty drop arm will resist damage even in the fastest crash. The front axle on the GP cars pivot, so that the front wheels adjust automatically to any change in camber giving better balance and greater stability.

24T/8
BANKED CURVE AND SUPPORT
24T/9
BANKING APPROACH PIECES
(Set of two)
24T/11
BANKING SUPPORT

Banked Track

The new banked track sections build into a smooth parabolic curve with no irregularities, enabling you to corner at really fantastic speeds.

A banked curve, 24T/8 is equal in size to a standard curve, six are required to make a 180° curve. The rails are offset and the complete banked corner is joined to standard track sections by using an approach piece, 24T/9 at each end.

A banked corner made from 6 24T/8 and 1 pair 24T/9

SCALEXTRIC ^{SUPER} 124

Track and accessories

SUPER 124 TRACK (12", 30.5 cm wide)

A carefully designed track with special features for high speed racing and maximum excitement.

- ★ Three-lane track sections.
- ★ Extends to six lanes.
- ★ Super tough plastic.
- ★ Stainless steel rails.
- ★ Even matt surface.
- ★ Spin-out borders.
- ★ Hand throttle sockets in every straight.
- ★ Perfect electrical continuity.

- 24T/1** Standard Straight (10.69", 27.15 cm long)
24T/3 Standard Curve (30")
24T/4 Inner Curve (30")
24T/7 Fly-over Bridge
 2 Base Units, 2 Summit Units,
 26 Pillars 11/16", 1.27 cm,
 4 Pillars 11/16", 1.75 cm,
 8 Pillar Top Sections.

TRACK BORDERS

- 24B/50** Inner Curve - Inner
24B/51 Inner Curve - Outer
24B/52 Standard Curve - Inner
24B/53 Standard Curve - Outer
24B/54 Standard Straight
24B/55 Flat Border Ends (1 pair)
24B/56 Fly-Over Border Ends (1 pair)

ACCESSORIES

- 24A/152** Pillar Supports 1/4", 1.27 cm
24A/153 Pillar Supports 11/16", 1.75 cm
24A/154 Pillar Supports Top Section
24A/155 Track Securing Clip
24A/156 Power Boost Connectors (Set of three)

SUPER 124 FIGURES

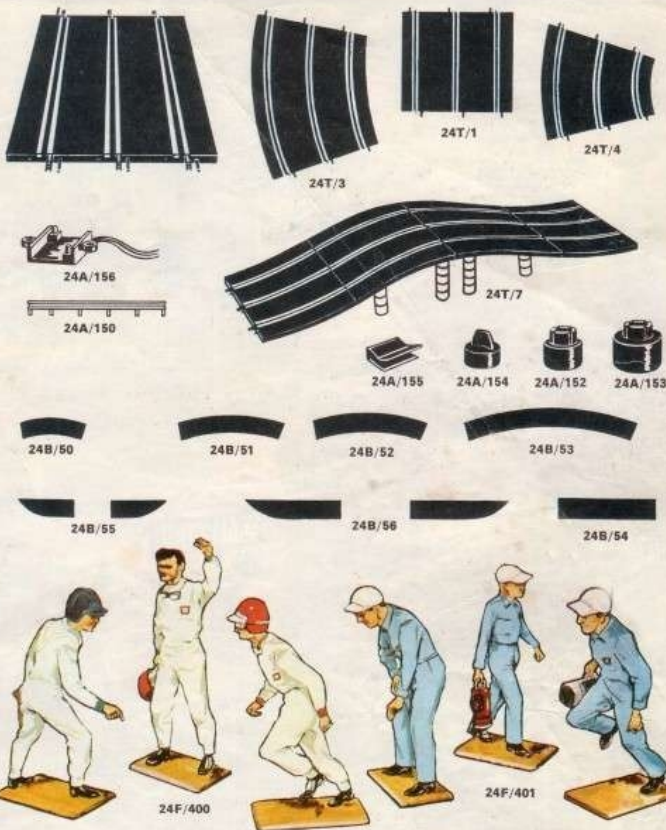

- 24F/400** Drivers (Set of three)
24F/401 Mechanics (Set of three)

24A/151 HAND CONTROLLER

- ★ BUILT-IN DYNAMIC BRAKE
- ★ FITTED 25 OHM RESISTOR
- ★ SPARE 15 OHM RESISTOR

Power unit

To get the best results from Scalextric Super 124 you need a separate power unit for each car. We recommend using power units with outputs of 12 volts D.C., 26 VA, at not less than 2.5 amps, and each should incorporate an AUTOMATIC THERMAL OVERLOAD CUT-OUT.

Hand Controller

A perfect precision hand controller specially engineered to race these high speed cars, and including a dynamic brake for instant response.

As with real racing cars your Scalextric Car may from time to time need servicing. Official Scalextric Service Dealers have been appointed throughout the country and they are fully equipped and qualified to effect rapid servicing and repairs to all Scalextric equipment. Scalextric Service Dealers also carry a comprehensive range of Spares for those enthusiasts who wish to carry out their own servicing.

Scalextric approved Service Dealers are provided with this Window Display Badge.
