Pegaso

COLLECTION

Top Slot's flagship Pegaso collection is built around the legendary brand funded in Barcelona in the early 1950's as the "prestige brand" for engine and truck builder ENASA.

The make released unique designed and engineered "state of the art" tourism and sports cars. Pegaso line of sports cars could not enjoy its deserved success due to a short-sighted intervention by the then established regime that lacked the view for an industry built around them.

The Pegaso Collection by Top Slot has been a market hit since its first release achieving sold out status for each model release within days of its introduction.
